Dear
Denhart Scholarship Committee,

I am pleased to recommend Mathew Simon and Miranda Lapour for the Denhart Family Sustainability Scholarship Prize. When we Started our collaboration in September, I said I saw three things: Talent, Passion & Future. Today I could not be happier with where we stand and the work from these students has been exceptional.

Working with Mathew & Miranda their passion is clear. They worked as though this were full time studio and collaborated with my team remotely each step of the way. The professionalism and dedication of the COANIQUEM Red project will be instrumental in helping us launch our next stores and we are already implementing many of their ideas in our first 9 stores.

The heart of this project is not a table or a card It is that they helped us reimagine how to sort donations in our stores and are helping us to create the culture of volunteering with COANIQUEM.

I am thrilled to work with these two designers in the next term. We have worked with many organizations and universities, but it is amazing to see what these students can do in just 16 weeks. I recommend them without reservation to this scholarship and to anything in the future.

Jorge Rojas Goldsack
Gerente Fundación
COANIQUEM
